RE: Concrete Shotblasting multiple bridges on I-76 Philadelphia

Jim:

I just wanted to comment on your company's service regarding this very time sensitive project. Your company was selected because of a strong referral from another contractor, and we have been very happy with every aspect of your service including; Prompt arrival, thorough Clean-up, flexibility to change schedules on as little as 24 hours notice and working at all hours of the day and night. Working with Subs that not only do a great job, on time, and having a great attitude is important for our company to complete our projects on time and within budget. This relationship makes doing business a pleasure.

Thanks again for your great efforts.

Sincerely,
Buckley & Company, Inc.

Dave Warner,
Project Manager
